EXPERIENCE

IBM SkillsBuild Academic Internship (Agentic AI & LLMs) | AI Automation & Agentic AI

Intern

Remote | June 2026 - Present

- Selected for the 6-week IBM SkillsBuild Academic Internship Program in collaboration with AICTE and BharatCares.
- Learning AI Automation, Agentic AI, Large Language Models (LLMs), and intelligent workflow automation.
- Building AI-powered applications through hands-on projects and expert-led masterclasses.
- Working with AI agents, prompt engineering, and AI workflow orchestration.

Infosys Springboard

Remote | February 2026 - April 2026

Completed project-based training in AI, Machine Learning, and NLP through Infosys Springboard 6.0.

Developed a Dynamic Text Analysis Platform using Python and NLP techniques.

Implemented topic modeling, sentiment analysis, and text summarization for text analytics.

Applied LDA and NMF algorithms to extract topics and key insights from textual data.

Built interactive dashboards with word clouds, sentiment visualizations, and analytical reports.

Labmentix Pvt. Ltd. | AI & Machine Learning Intern

Remote | September 2025 - November 2025

Developed an ATS Resume Detector using Python and machine learning.

Implemented resume analysis, keyword matching, and data preprocessing.

Trained and evaluated machine learning models for resume classification.

Strengthened practical skills in AI, ML, and predictive modeling.

Novem Control | Python Developer Intern

Mohali | June 2024 - August 2024

Developed an e-commerce web application using Python.

Built frontend and backend features with database integration.

Debugged, tested, and optimized application performance.

Gained hands-on experience in Python, SQL, and web application development.

SKILLS

Programming Languages: C, C++, Python, HTML, java, javascript, CSS

Libraries/Frameworks: Node.js, panda, Pandas, Numpy, Scikit-learn, Matplotlib, React, Flask, Tailwind CSS

Tools / Platforms: Linux, Git, GitHub, VS Code, Tableau, Google Colab, Streamlit, Postman, MongoDB Compass, Vercel, Render

Databases: MySQL, MongoDB

PROJECTS / OPEN-SOURCE

EduVault AI | [Link](#) React, TypeScript, Vite, Flask, Python, MongoDB, TanStack Router, React Query, Tailwind CSS, Vercel, Render, Git/GitHub

Built a full-stack AI-powered educational platform for document management, AI-generated summaries, quizzes, and personalized learning.
Developed secure authentication and REST APIs using Flask and MongoDB.
Designed a responsive React frontend with TanStack Router and React Query.
Deployed production-ready frontend on Vercel and backend on Render with environment configuration and CORS support.

Heart-disease-risk-prediction-ml | [Link](#)

Python, Streamlit, Scikit-learn, Pandas, NumPy

Built a machine learning application to predict heart disease risk using Logistic Regression with L1 regularization.

Implemented data preprocessing, feature scaling, model evaluation, and deployed an interactive Streamlit web interface.

Achieved 81% accuracy and 0.93 ROC-AUC, with real-time prediction, confidence score, and risk assessment.

Advance-Disk-Scheduling-Simulator | [Link](#)

JavaScript, Python, CSS

Developed a full-stack Disk Scheduling Simulator to visualize FCFS, SSTF, SCAN, C-SCAN, LOOK, and C-LOOK algorithms. Built interactive disk head movement visualizations using React and Chart.js, and developed Flask REST APIs for scheduling simulation and result processing. **Technologies:**

Python, Flask, React.js, HTML, CSS, Chart.js.

CERTIFICATIONS

- Web Development - Himmel Infotel Pvt Limited.
- Python Programming - Novem Contols.
- Stock Market Analyst
- IBM SkillsBuild - IBM.

HONORS & AWARDS

- Best Photographer Award Athletic Meet
- Best NSS Volunteer
- Achieved Top 3 rank in Class X at school level.
